United DeFoam Winter

Product Data Sheet

Product Description:

United DeFoam Winter is an organic, hydrophobic silica based, biodegradable antifoam agent designed specifically for air drilling operations. DeFoam has exceptional knockdown speed and high persistency. DeFoam works well in all water conditions and temperatures. DeFoam works effectively in very low concentrations and offers significant cost savings compared with other silicone based systems. DeFoam is designed to be used in conjunction with United Oil Companies suite of air drilling products including **AirFoam** foaming agent, **AirFoam NB** non-butyl foaming agent and **RockDrill rock** oil.

Outstanding Qualities:

1. Cold Weather Stable
2. Environmentally friendly, biodegradable product
3. Effective in high and low pH water conditions
4. Instantly knocks down foam
5. Can be used in air/foam, air/gel-foam or mist drilling applications
6. Can be applied continuously in closed loop system or batched

Technical Information

Appearance	White Opaque
Density g/ml	0.75 – 0.92
Activity	100 %
pH	7.0 – 9.0
Flash Point PMCC	> 300° F
Pour Point	-15° F

Available Packaging

55 Gallon Plastic Drum

275 Gallon Totes

Supplying Quality Industrial Lubricants to the Metals Industry since 1906
