United Oil Lamination Temper Fluid 1000

Product Data Sheet

Product Description:

United Oil Lamination Temper Fluid (TF 1000) is an oil/solvent based rust preventive used for the protection of steel or cast iron parts during indoor storage for a period of up to one year. United TF 1000 can be used as a mill cleaner or lamination oil. United TF 1000 exhibits excellent wetting and superior grease penetration.

The oily film deposited by TF 1000 is self-healing and lubricating making it ideal for the storage of parts prior to assembly

Technical Information:

Viscosity @100° F SUS	35-45
Pounds per Gallon @ 60°F	6.8
Flash Point, COC °F	275
Fire Point, COC °F	290
Pour Point, °F	20
Appearance	Clear Straw Liquid
